

Beta Theta Pi's origin is traced to Pater Knox, who, on August 8, 1839, made public his fraternal intentions. This founding was the first of the three fraternities known as the "Miami Triad". Since its founding, Beta's ever-growing strength and soundness have progressed through one hundred and eleven years. The Oklahoma chapter of Beta was formed in 1907 through the efforts of David Ross Boyd, first president of the University; Dr. J. H. Felgar, first dean of the College of Engineering, and Dr. J. S. Buchanan, later president of the University. Prominent Beta alumni now on the campus include Carl M. Franklin, executive Vice-President of the University, and Earl Sneed, Jr., Acting Dean of the Law School.

At the guiding helm again this year was the warm heart of Beta's revered housemother, Mrs. Gilliland. The homey atmosphere of the Beta House was largely due to her unceasing efforts.

Stressing scholarship and maturity, Gamma Phi chapter moves with propriety to keep up the standards it has set in the past for the betterment of Beta Theta Pi and the Greek world as a whole.
